

Sundry Items

Buggies

In response to a request from the Committee, wooden barriers and signs will be placed at the following locations. Hopefully this will stop buggies from using these areas.

- 1st - Trolley path leading to tee from car park.
- 9th - Cut through from green, across 1st fairway to car park.
- 11th - Gap between green and 12th tee.

Practice net

This is currently to the right side of the buggy path leading to the 1st tee. This land is to be sold off and the net will move to the other side of the path. It will be cut into the trees alongside the car park, behind the 1st tee.

Practice area

Plans are afoot to replace the existing practice bunker, when time becomes available.
